

## International Youth Chess Solving Challenge

(Unofficial Event – No Rating Impact | 90 Minutes | 1 Problem per Category)

European Youth  
Rapid and Blitz  
Chess Championship 2025

**To:** Players of the European Youth Rapid and Blitz Chess Championship 2025

**Subject:** Test Your Analytical Brilliance in Chess Problem Solving

### Invitation

We're excited to invite you to our **Chess Solving Challenge**—a unique event that takes chess beyond competitive play! Instead of facing opponents, you'll test your wits against intricate chess puzzles: the same kind of compositions featured in official World Chess Solving Championships since 1977. Ready to flex your mental muscles? Join us and dive into the fascinating world of chess problems!

### About Chess Solving

A prestigious global discipline with yearly events:

- **World Chess Solving Championship** (since 1977)
- **European Chess Solving Championship** (since 2005)
- **International Solving Contest (ISC)** (in January, since 2005)
- **National Events Calendar:** <https://solving.wfcc.ch>

### Challenge Format (One problem per category • 90 minutes total)

Category	Objective	Clarifications
<b>Mate in 2</b>	White mates in 2 moves	On the solution's sheet only the <b>key</b> is written (White's 1 <sup>st</sup> move), nothing more is required!
<b>Mate in 3</b>	White mates in 3 moves	We write the <b>key</b> and the <b>threat</b> it creates (White's 2 <sup>nd</sup> move). Then we list Black's <b>defenses</b> (Black's first moves) against this specific threat and how White mates in each of these cases
<b>Mate in 4+</b>	White mates in 4+ moves	We write the <b>key</b> and the <b>threat</b> it creates until move <b>n-1</b> (e.g. in 4-movers we write until White's 3 <sup>rd</sup> move included). We then list Black's <b>defenses</b> and how White mates in each of these cases
<b>Endgame Study</b>	Win/draw from inferior positions	One-line sequence of 6-10 moves

Category	Objective	Clarifications
<b>Helpmate</b>	Cooperate to checkmate Black	<u>Black moves first</u> . Both players cooperate to achieve checkmate against Black by White's last move. All moves need to be written. A helpmate can have multiple different solutions
<b>Selfmate</b>	Force opponent to checkmate you	White moves first and forces Black to deliver checkmate by Black's last move. We write until White's last move; Black's last move is forced so it can be omitted

## Why Participate?

- Skill Development:** Enhance calculation and pattern recognition
- Competition Insight:** Experience International Tournaments' format
- No Rating Impact:** Un official event
- Prizes:** Awards for top performers

## Event Details

Aspect	Specification
<b>Age Groups levels</b>	A Level U08 & U10 (not included helpmate and selfmate) B Level U12 & U14 C Level U16 & U18
<b>Date</b>	Wednesday, August 6
<b>Time</b>	10:00–12:00 (90 minutes net time + explanations/discussion before and after the event)
<b>Materials</b>	Pen and chessboard (optional)
